Office of the District Magistrate,

Kolar District,

Dated Kolar the 28th November 1916.

From

P. F. B O W R I N G, Esquire J. P.,

District Magistrate, Kolar District.

To

D. M. NARASINGA RAO. Esquire, B. A., B.L.,

Secretary to the Government of His Highness

the Maharaja of Mysore, Bangalore.

General Department.

Sir,

I have the honor to state that it is reported that since the outbreak of war it has been impossible to obtain a dye of the light pink-- shade, formerly used in the manufacture of candles for the Kolar Mines, in consequence of which, other suitable colouring matter--pink, green or red -- has had to be substituted in order that the mines may continue to use a candle distinctive in appearance from those in ordinary commercial use.

2. Recently, a case of possession of green candles (Government versus Nayana alias Perumal, C.C.No.256 of 1916-17, on the file of the Senior Assistant Commissioner and 1st class Magistrate, Kolar Gold Fields) has been thrown out on the ground that green candles do not come within the definition of mining material.

3. Under the circumstances, I would request you to kindly move Government, to alter the definition of mining material in section 3 (6)(d) of the Mysore Mines Regulation IV of 1906 to read as follows:-

"Stearine candles distinguished by the wax being of a pink, red or green colour," with the distinctive wicks of the several mines.

I have the honor to be,
S i r,

FROM

B. JAYARAM, Esq., F.G.S.,
Director (in charge), Department of Mines and Geology,
Mysore State.

To

D. M. Narasinga Rao, Esq., B.A., B.L.,
Secretary to the Government of His Highness
the Maharaja of Mysore, General Department.

SIR,

In reply to your letter No. J. 2551 - Legis 21-16-2, dated 19th January 1917, I have the honour to state that in view of (1) the reported impossibility of obtaining a dye of the light pink shade, during the war and (2) the necessity of protection of mining property, it is, in my opinion, necessary that the definition of the term "Mining Material" in section 3 (6) (d) of the Mysore Mines Regulation should be altered as recommended by the District Magistrate, Kolar District.

2. The Chief Inspector of Mines, whom I also consulted in the matter, endorses the above recommendation and I enclose herein a copy of his letter No. 738, dated 25th January 1917, together with a copy of its enclosure. This letter also touches on an alternative proposal relating to the use of white candles with the distinctive wicks of the several mines in the event of colouring matter of the above shades not being procurable during the war, but it is stated that such a contingency is not expected to arise yet awhile. I think it would be desirable, however, that the

alteration

alteration of the definition may be made once for all so as to meet such a contingency also.

I have the honour to be,

Sir.

Your most obedient servant,

B. Jaya Rao

Director (in charge),

Department of Mines and Geology.

Encl to Sl.No 3

Letter No. 738, dated 25th January 1917, from R. Bocquet, Esq., Chief Inspector of Mines, to B. Jayaram, Esq., F.G.S., Director (in charge), Department of Mines and Geology.

I have the honour to acknowledge receipt of your letter No. 2070, dated Bangalore, 20th January 1917, forwarding copy of letter No. Ref. M.A. 1067, dated 28th November 1916, from the District Magistrate, Kolar District, to the Secretary to Government, General Department, and to state in my opinion that the wording of the definition of "Mining Material" in Section 3 (6) (d) of the Mysore Mines Regulation (IV of 1906) should be altered to read as suggested, (1) in view of the impossibility of obtaining a dye of the light pink shade as laid down in the Regulation and (2) to detect, whenever possible, the theft of Mining Material.

It is obvious from the case quoted (Govt. versus Nayana alias Perumal, C.C. No. 256 of 1916-17) that, owing to this clause of the section being insufficiently explanatory, the theft of Mining Materials (candles) is likely to be carried on indiscriminately.

I enclose copy of letter from the Secretary and Treasurer, Messrs. John Taylor and Sons' Committee, for information, showing the arrangements made for the supply of candles during the current year. It will be observed from this that, in the event of the failure to obtain colouring matter of the shades mentioned, white candles with the distinctive wicks specified will be supplied. It is not anticipated that this contingency will arise yet awhile.

Copy,

B. Jayaram

Director (in charge),
Department of Mines and Geology.

Camp Kondli,
28th January 1917.

Enc 2 to Sl No 3.

Letter dated 23rd January 1917 from the Secretary and Treasurer, Messrs. John Taylor and Sons' Committee, Oorgaum, to the Chief Inspector of Mines, Kolar Gold Field.

Candles.

Supplies for the year 1917.

Colours and distinctive wicks. In reply to your letter No. 726 of the 22nd instant, I have the honour to state that the arrangements concluded for the supply of Candles during the current year are as follows :-

Messrs. Best and Co., Madras (half supply)

Company	Distinctive wicks.	Colours of candles for Company's use.	Colours of candles for contractors' use.
Mysore	White with one red thread running through.	Pink or Red.	Yellow.
Champion Reef.	Red and blue wick.		
Ooregum.	White with six blue threads running through.		
Nundydroog.	White with one green thread running through.		
Balaghat	White with one blue thread running through.		

Messrs. The South Indian Export Co. Ld., Madras (half supply)

Company.	Distinctive Wicks.	Colours of candles for Companies' use.	Colours of candles for contractors' use.
Mysore	All red.	Pink or Green	Yellow
Champion Reef	All green		
Ooregum	All black		
Nundydroog	All blue.		
Balaghat	All yellow.		

In

In the event, however, of either of the above colouring matter being unobtainable during the continuance of the war, the Firms have permission to supply white candles, with the ~~distinctive~~ distinctive wicks specified, in lieu of either Pink, Red, Green or Yellow shades.

During the past year (1916) only Pink, Green and Yellow candles were supplied to the different companies.
